Machines Ages 5 and up

- Problem solving & critical thinking skills are developed
- Math, Science, Architecture & Engineering concepts are explored through hands-on projects.
- Creativity, self-confidence & team work are encouraged

Robotics Ages 9 and up

- Investigate, strategize, program, and test your robotic inventions using sensors, motors and gears.
- Robots and programming are the same standards used for our F.I.R.S.T LEGO® League Team!
