

BOND WORK UPDATE – SEPTEMBER 2018

**Safer outdoor play. Safer building entrances and walkways.
A new auditorium. Updated boys and girls bathrooms.
New flooring. Abatement work.**

While we were all, hopefully, enjoying the respite of the summer months, a flurry of work was going on at all four of our schools. Here is a summary of the work accomplished - on time and on budget – that was provided for in our community’s December 2015 approved bond plan.

- Playground surface replacement at all four schools.
- Bathroom renovations: four each at Dever, Howell, and Willow; three at Wheeler – anticipated completion October 2018.
- Auditorium renovations, including new seating, at Wheeler.
- New floor tile in Howell’s General Purpose room.
- New hallway tile at Howell in one-third of the long hallway directly outside the General Purpose room.
- Entranceway and walkway repairs at Dever and Wheeler.
- Abatement work in crawlspaces at Howell and Willow.
