January 25, 2021

Dear Valley Stream UFSD Thirteen Parents and Guardians,

Last night, a James A. Dever family self-reported that a parent and child in one classroom tested positive for coronavirus (COVID-19). Following the guidance issued by the New York State Education Department, and the Nassau County Department of Health (NCDOH), we immediately contacted the county health department for confirmation and direction. We also confirmed whether there are any siblings attending the Central High School District or other regional schools.

The last day of attendance for the student was Wednesday, January 20th. Per the NCDOH and out of an abundance of caution, we are quarantining the class for 10 days. The students will not be permitted to return to school until Monday, February 1st. The NCDOH is conducting an investigation and contacting anyone identified as a close contact to the student.

As a reminder, our facilities are cleaned and disinfected on a daily basis as per the New York State Department of Education and CDC guidelines. Based on guidance from the NCDOH, it is not necessary that we enact any further restrictions or measures at this time.

We will continue to monitor this case and keep you updated with any pertinent information. Please continue to exercise the safe practices recommended by the Centers for Disease Control (CDC) including socially distancing, wearing a mask, and frequent hand washing.

Sincerely,

Dr. Constance D. Evelyn
Superintendent of Schools

Dear Valley Stream UFSD Thirteen Parents and Guardians,

Friday night, a Dever family self-reported that the sibling of a child in one classroom tested positive for coronavirus (COVID-19). Following the guidance issued by the New York State Education Department, and the Nassau County Department of Health (NCDOH), we immediately contacted the county health department for confirmation and direction. We also confirmed whether there are any siblings attending the Central High School District or other regional schools.

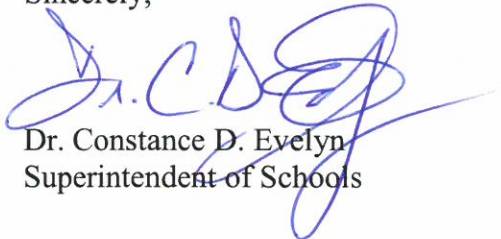

At this time, the only individuals required to quarantine are those who came into direct contact with the student's family member without following established safety protocols. In this classroom, we have adhered to the maintenance of social distancing and mask wearing. Moreover, as an additional safety measure, desk barriers were installed throughout the district and these continue to be utilized daily.

The student's last day of attendance was Wednesday, January 20th and is reportedly not presenting any symptoms associated with COVID-19. The student will not be allowed to return to school for at least 10 days. The NCDOH is conducting an investigation and contacting anyone identified as a close contact to the student's family member.

As a reminder, our facilities are cleaned and disinfected on a daily basis as per the New York State Department of Education and CDC guidelines. Based on guidance from the NCDOH, it is not necessary that we enact any further restrictions or measures at this time.

We will continue to monitor this case and keep you updated with any pertinent information. Please continue to exercise the safe practices recommended by the Centers for Disease Control (CDC) including socially distancing, wearing a mask, and frequent hand washing.

Sincerely,

Dr. Constance D. Evelyn
Superintendent of Schools
