

PRESCHOOL SPECIAL EDUCATION

The Board of Education recognizes the value of special education and its responsibility in ensuring that all resident preschool children with disabilities have the opportunity to participate in special programs and services from which they may benefit. The Board authorizes the Superintendent of Schools to establish administrative practices and procedures which shall include:

1. locating and identifying all preschool children with disabilities pursuant to the relevant provisions of the Education Law. The register of children eligible to attend a preschool program is to be maintained and revised annually by the Committee on Preschool Special Education (CPSE);
2. ensuring that the parent(s)/guardian(s) of preschool age children with disabilities have received and understand the request for consent for evaluation of their child;
3. developing an individualized education program (IEP) for each preschool age child with a disability; in the least restrictive environment;
4. appointing and training appropriately qualified personnel including the members of a CPSE;
5. maintaining lists of impartial hearing officers and of State Education Department-approved special education programs within the county and adjoining counties in which the district is located; and
6. reporting to the State Education Department the number of children with disabilities that are being served, as well as those not served.

The Board of Education has established the CPSE as required under the Education Law. Its responsibilities include the evaluation and recommendation for placement in appropriate approved programs and the provision of appropriate special education programs and services for each preschool child with a disability. The CPSE shall review, at least annually, the status of each preschool child with a disability.

The child's parent/guardian will be invited to attend all CPSE meetings regarding the child and will be given written notice in advance of such meeting which includes notice of the right to present documentary, evidence to the CPSE or to present experts to the CPSE.

It is ultimately the responsibility of the Board to arrange for the appropriate approved preschool program and services for the district children. Should the Board disagree with the CPSE's recommendations, it shall send the recommendation back to the CPSE so that they may schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate.

Placement determinations may be appealed by a parent/guardian to an impartial hearing officer, appointed by the Board. Mediation shall be offered to such parents/guardians to resolve complaints regarding the education of preschool children with disabilities at the same time notice of the availability of an impartial hearing is provided.

The CPSE shall make an annual report on the status of each preschool child with a disability and report on the adequacy of preschool special education programs and services to the Board.

4321.2

The Board directs the Superintendent to ensure that the district considers that adequate and appropriate space is made available for such programs and services.

The Board directs the Superintendent to develop and maintain a plan which incorporates information concerning the provision of services for preschool children with disabilities, pursuant to the Regulations of the Commissioner of Education.
