# Math in Focus Parent Workshop

December 8, 2016

6:00 pm—8:00 pm

James A. Dever Auditorium

Please join us for an informational session on the newly implemented K-6 Math in Focus program. This session will help you understand the various components of the program and how you can support your child at home with mathematics.

Children will not be part of the parent workshop, but school-age (K-6) child supervision will be available to you in the James A. Dever cafeteria. We recommend you bring a quiet activity for your child, such as their homework or independent reading book.

Please fill out the form below and return it to your child's teacher by Friday, December 2nd.
