November 25, 2020

Dear Valley Stream UFSD Thirteen Parents and Guardians,

Today, a family at the Wheeler Avenue Elementary School self-reported that their child tested positive for coronavirus (COVID-19). Following the guidance issued by the New York State Education Department, and the Nassau County Department of Health (NCDOH), we immediately contacted the county health department for confirmation and direction. We also confirmed that there are no siblings attending the Central High School District.

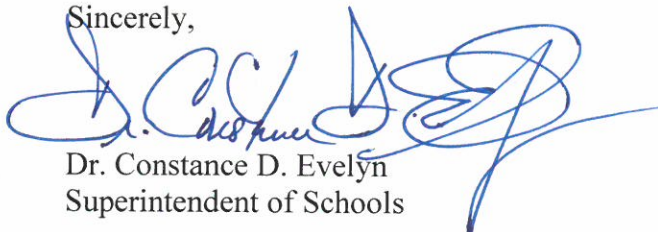

At this time, the only individuals required to quarantine are those who came into direct contact with the person who tested positive without following established safety protocols. In this classroom, we have adhered to the maintenance social distancing and the utilization of desk barriers.

This student's last day of attendance was Friday, November 20, and they were reportedly not presenting any symptoms associated with COVID-19. The student will not be allowed to return to school for 14 days. The NCDOH is conducting an investigation and contacting anyone identified as a close contact to the student.

As a reminder, our facilities are cleaned and disinfected on a daily basis as per the New York State Department of Education and CDC guidelines. Based on guidance from the NCDOH, it is not necessary that we close the building or enact any further restrictions or measures at this time.

We will continue to monitor this case and keep you updated with any new information. Please continue to exercise the safe practices recommended by the Centers for Disease Control (CDC) including socially distancing, wearing a mask, and frequent hand washing.

Sincerely,

Dr. Constance D. Evelyn
Superintendent of Schools

Dear Valley Stream UFSD Thirteen Parents and Guardians,

Late yesterday, a family at the Willow Road Elementary School self-reported that a parent of a child in one of our classrooms tested positive for coronavirus (COVID-19). Following the guidance issued by the New York State Education Department, and the Nassau County Department of Health (NCDOH), we immediately contacted the county health department for confirmation and direction. We also confirmed whether there are any siblings attending the Central High School District or other regional schools.

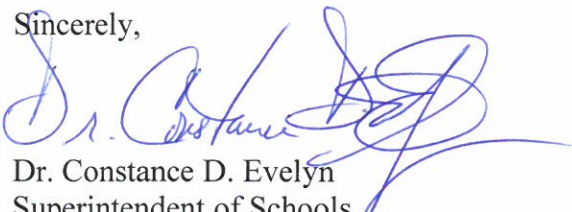

At this time, the only individuals required to quarantine are those who came into direct contact with the student without following established safety protocols. In this classroom, we have adhered to the maintenance of five feet and mask wearing. Moreover, as an additional safety measure, desk barriers were installed throughout the district and these continue to be utilized daily.

The students' last day of attendance was Tuesday, November 24th and is reportedly not presenting any symptoms associated with COVID-19. The student is not in school today and will not be allowed to return to school for at least 14 days. The NCDOH is conducting an investigation and contacting anyone identified as a close contact to the student.

As a reminder, our facilities are cleaned and disinfected on a daily basis as per the New York State Department of Education and CDC guidelines. Based on guidance from the NCDOH, it is not necessary that we close the building or enact any further restrictions or measures at this time.

We will continue to monitor this case and keep you updated with any pertinent information. Please continue to exercise the safe practices recommended by the Centers for Disease Control (CDC) including socially distancing, wearing a mask, and frequent hand washing.

Sincerely,

Dr. Constance D. Evelyn
Superintendent of Schools
