A Summer of *Music to Remember*

What an incredible three weeks it has been!

The Valley Stream Central High School District was proud to welcome nearly 200 students to this year's Summer Music Program.

Whether students were picking up an instrument for the first time or continuing to grow as young musicians, it was wonderful to see their confidence, musicianship, and enthusiasm develop throughout the program.

Thank you to our exceptional teachers for sharing their expertise, dedication, and passion with our students each day. Their commitment created a positive and engaging experience that inspired our students to learn, grow, and enjoy making music together.

To our families, thank you for your support and for making music a part of your child's summer. We hope each student leaves with newfound confidence, lasting friendships, wonderful memories, and an even greater love of music.

Wishing our students and families a wonderful remainder of the summer.
